# Gazi Medical College & Hospital Ltd. Bangladesh.

## Destination of Your Medical Education

GAZI MEDICAL COLLEGE is one of the best private medical colleges of Bangladesh which is established in 2011. It is situated in Khulna, a divisional city in the south-west part of the country. Attached teaching hospital GMCH is delivering health services since 1988. Maintaining quality services and commitment the college and the hospital became the Brand in health care and medical education sector in Bangladesh and abroad.

GAZI MEDICAL COLLEGE &  
HOSPITAL LTD.

GAZI MEDICAL COLLEGE

GMR NURSING INSTITUTE

## Message from *Founder*

I dream that all people get quality medical services. To achieve this goal sufficient number of highly qualified and skilled doctors, nurses and health care professionals are required. So we need standard educational institutes and to develop qualified manpower to render quality medical services to the people.

To contribute in this field I established Khulna Surgical and Medical Hospital in 1988 and renamed as Gazi Medical College Hospital Ltd in 2011. Gazi Medical College & Hospital Ltd has its three wings Gazi Medical College Hospital, Gazi Medical College & GMR Nursing Institute.

The hospital has 500 beds with modern facilities. The vision of the hospital is to provide a comprehensive, one-stop healthcare solution for the people of southern part of the country. The outpatient departments serve more than 700 patients daily. We have department wise indoor-outdoor services as per requirement of standard teaching hospital. We have also specialized center for Dialysis, CCU, HDU, ICU, NICU and specialized Neuro ICU. We have a diagnostic wing which included modern equipments like CT Scan, MRI, BMD, Endoscopy, Echo, Doppler RT-PCR, ETT, ECG, Mammography and much more. Our vision is to ensure world class health care solution for all. Gazi Medical College is the first private Medical College in Khulna City established and approved by Ministry of Health and Family Welfare in 2011-12 academic session.

We offer 5 years MBBS course in the Gazi Medical College and one year Internship in Gazi Medical College Hospital. The members of Gazi Medical College governing body, the principal, vice principal, all the teachers of different departments and general staffs of the college are working together as a team to achieve the goal. Yearly intake of GMC is 100 students. More than 500 students from Bangladesh, India and Nepal study in this College in an international environment. It's our students who are playing a vital role in making the Colleges well known by their brilliant and outstanding results in Bangladesh. A 250 Bedded world class Cancer Hospital and Nursing College is under construction which will be functioning within a couple of years.

GMR Nursing Institute is another wing of Gazi Medical College & Hospital Ltd. Established in 2010 conducting 3 years course in Diploma in Nursing Science and Diploma in Midwifery. This Institute is approved by Bangladesh Nursing & Midwifery Council (BNMC) and Ministry of Health family Welfare (MHFW) of Bangladesh. Yearly intake is 105 students.

I am grateful to the government of Bangladesh specially the Ministry of Health and Family Welfare (MHFW), Directorate General of Health Services (DGHS), Rajshahi University (RU), Rajshahi Medical University (RMU), Sheikh Hasina Medical University, Bangladesh Medical and Dental Council (BM&DC) and our well-wishers for their constant inspiration.

I am thankful to National Medical Commission (NMC) of India former (MCI) and Nepal Medical Council (NMC) for enlisting Gazi Medical College. GMC is also enlisted in the world Directory of Medical schools of WHO. Our Alumni also eligible to appear PLAB & USMLE.

We are committed to produce qualified doctors, nurses for our country as well as for abroad.

**Dr. Gazi Mizanur Rahman**  
Founder and Chairman  
Gazi Medical College & Hospital Ltd.

Message

## Message from *Principal GMC*

It is very difficult to express how much excited I am to welcome so many promising & potential students full with dream, energy, spirit, vigor, self-confidence, dedication, commitment and so on. This is happening every year. As the principal of Gazi Medical

College, I am conveying my affectionate love to my students from the deepest corner of my heart and wishing all a smooth and successful academic life in this college.

Gazi Medical College is a promising higher educational institution which is contributing tremendous service in health sector in southern Bangladesh. We have well reputed multi-disciplinary teaching hospital since 1988, situated at the heart of Khulna city adjacent college building. All the doctors, nurses and health workers of this institution are providing their dedicated services for the well-being of the people living in this region. In private health sector Gazi Medical College is producing the largest number of MBBS graduates in this region. They are providing their best service in different corner of the country as well as abroad and serving the people. Many of our students from every batch are getting chance in world-class institutions for higher studies.

The authority concerned to Gazi Medical College always tries to facilitate the academic atmosphere with a view to ensure quality medical education. We are providing highly learned academic faculties. We pay our highest attention in recruitment of teacher so that we can select the best candidate.

Overseas students deserve to draw our special attention. as about 45% students come from abroad, they are our vital stakeholders. We try to provide all students with affectionate care and parental love. My door is always open for students to solve their problems.

I would to say to my beloved students "Be an enlightened doctor" who can serve the world with profound dedication.

**Professor Dr. Banga Kamal Basu**

Principal

Gazi Medical College

Khulna, Bangladesh.

## Message from *Principal GMRNI*

GMR Nursing Institute is the first government approved nursing institute established in Khulna, one of the largest divisional cities of Bangladesh. As the world progresses so fast, the demand and competition for all professions is increasing. At the same time, the nursing profession is now gaining acceptance as a challenging profession. Keeping in view the progress of the country and global demand, GMR Nursing Institute is currently conducting two courses- Diploma in Nursing Science and Midwifery and Diploma in Midwifery. Many students have passed the Diploma in Nursing Science and Midwifery courses from this institute and are working in various health care centers in the country and abroad. In this regard, many alumni from this institution have got government job. As the GMR Nursing Institute is a part of the 500-bedded Gazi Medical College Hospital, the students have the opportunity to complete their clinical practice and internship at Gazi Medical College Hospital. According to the BNMC policy, we have very good labs and experienced teachers in all subjects. At the same time, we have our own residential hostel with full security. GMR Nursing Institute is one of the top ranked among private institutes approved by the government of Bangladesh.

# Background of Bangladesh

In 1971 Bangladesh became an independent country after the liberation war and the nation started to build the country from the ruin. Like other sector the health services were insufficient due to

inadequate number of doctors, specialists, nurses and lack of infrastructures. Those days the medical facilities were so inadequate in south west part of Bangladesh that patients used to go to Dhaka, the capital city of Bangladesh or to Kolkata, India, 160 km for even for a simple operation like, appendectomy, cholecystectomy or hysterectomy etc. It was very difficult for the government to provide the health service to a vast population in Bangladesh.

After independence in 1971, Bangladesh became a secular people's republic. Its area is 1,47,570 sq. km. The North, the west and the most part of the east is surrounded by India, the southeast part of the east is attached with Myanmar and The Bay of Bengal is to the south.

Bangladesh is an emerging developing country, with a market-based mixed my. In South East Asia, Bangladesh has third-largest economy. According to Human Development Report, Bangladesh one of the countries that made the greatest progress in recent decades.

econo-  
t h e  
t h e  
desh is  
est prog-  
This is the

of them are young. The main religion in Bangladesh is Islam (90.2%), but a significant percentage of the population adheres to Sanatan (8.5%). Other religious groups include Buddhists (0.9%), Christians (0.3%, mostly Roman Catholics), and Animists (0.1%). It is a moderate Muslim country and all people with different religions live here with good harmony.

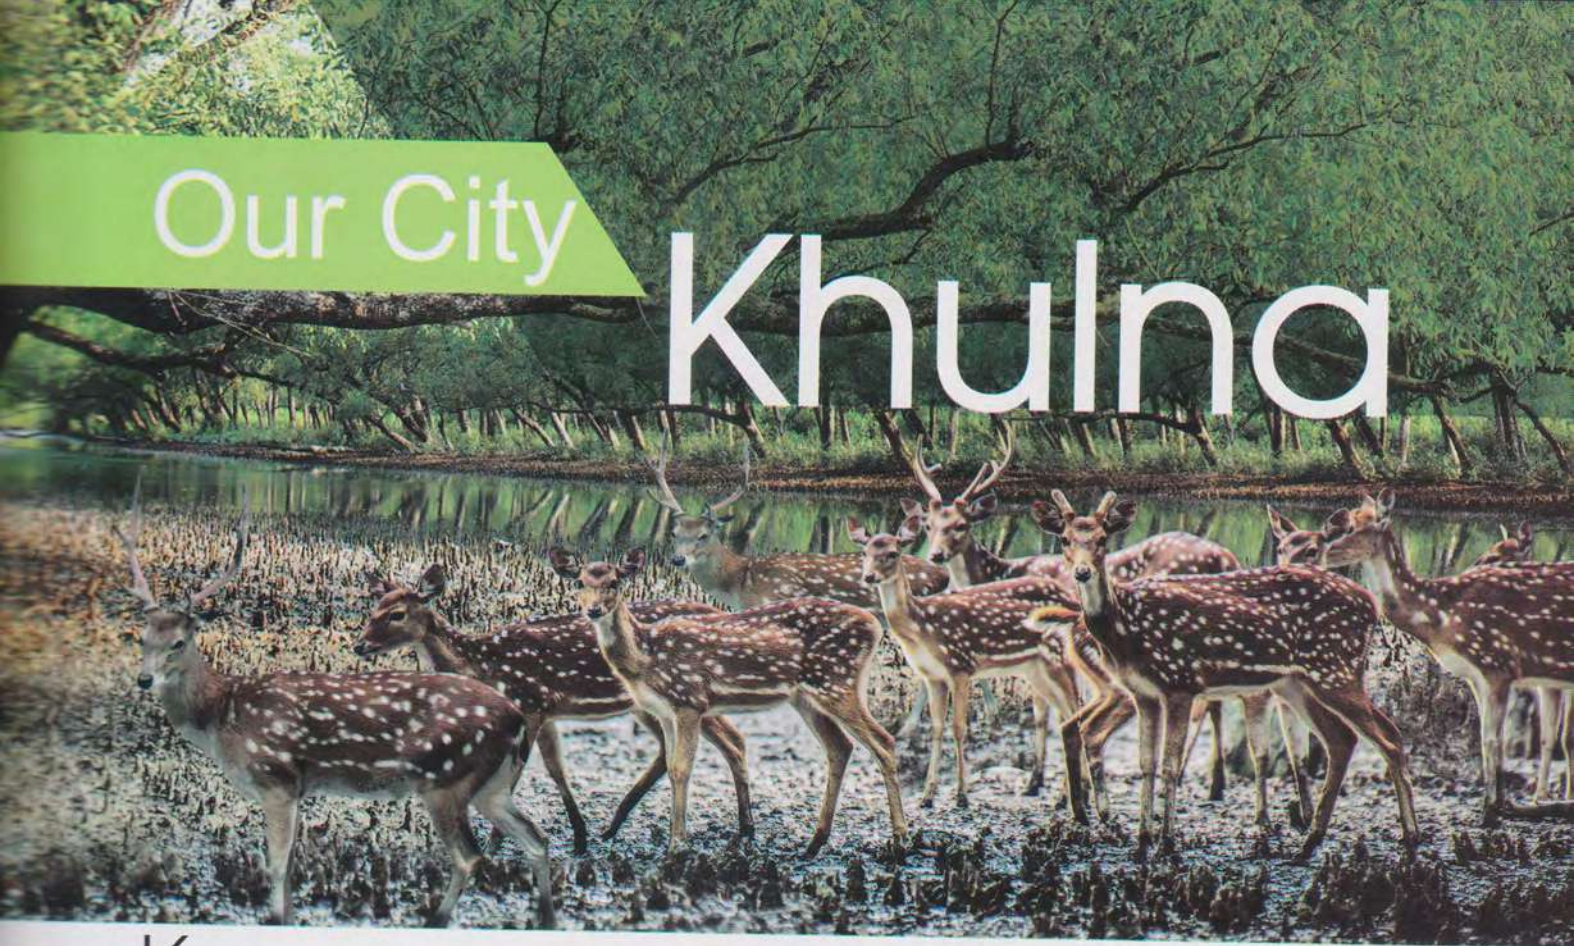

The language Bangla is derived from Sanskrit and Pali which are the root of many languages of India and although Bangla is the national language, English language is widely spoken and understood by general people.

There is no place for racism & discrimination. Festivals and celebrations are an integral part of the culture of Bangladesh. The secular festivals like Pohela Boishakh, International Mother Language Day, Independence Day, Rabindra Jayanti, Nazrul Jayanti celebrated widespread in Bangladesh. Everybody has right to observe their own religious festival and rituals like EID, Ramadan etc for Muslims; Puja-parbon for Hindus; Easter day, X-mas Day for Christians, Chibor Dan, Buddah Purnima for Buddhists etc.

Our City

# Khulna

Khulna is the third-largest city of Bangladesh. Khulna is in the south-west part of the country and the administrative headquarter of the District and Division. The Khulna division borders the Indian state of West Bengal to the west, the Rajshahi Division to the north, the Dhaka and Barisal Divisions to the east, and has a coastline on the Bay of Bengal to the south where the largest Mangrove forest in the world 'Sundarbans' is situated. There are many historical places in the division like Khanjahan Ali Tomb, Sixty Domed mosque built in fifteenth century, Father in law's house of Rabindra Nath Tagore etc.

Khulna is an educational hub in which Khulna University, Khulna University of Engineering Technology, Sheikh Hasina Medical University, Khulna Agricultural University, Northern University, North-Western University, Khulna Medical College, Gazi Medical College and many more are established here. Development it is a city of sports. Many matches of ICC cricket tournament played here in Sheikh Abu Naser International Stadium. Khulna is a port city. Mongla sea port is only 38 km from the city. It is also an industrial area and the most rapidly developing city in the south. By road, railway and river way it is connected to the capital Dhaka only 180km for and the other parts of the country. These infrastructures play a vital role in the city's economy, which also depends upon Jute, Seafood, Cement, LPG, Ship building, Salt Industries, handicrafts etc. Gazi Medical College Hospital Ltd, is situated at the center of Khulna City known as Sonadanga, the aristocratic residential & commercial area of Khulna City.

# MBBS

in Gazi Medical College

MBBS is a 5 years course and the medium is English. The educational wing of GMC&H is working to prepare highly qualified doctors that could meet future demand of our country and abroad as well. Out of the intake 45% quota is reserved for foreign students and we earned a good name and fame in our country and other South-East Asian countries like India and Nepal and more than 200 students are already getting medical education from those countries. Many of our students are working in Bangladesh India and Nepal in government and Private Sector.

We are proud that many of our alumni already completed post graduation in different specialities and also doing their post graduate courses in Bangladesh and abroad as well.

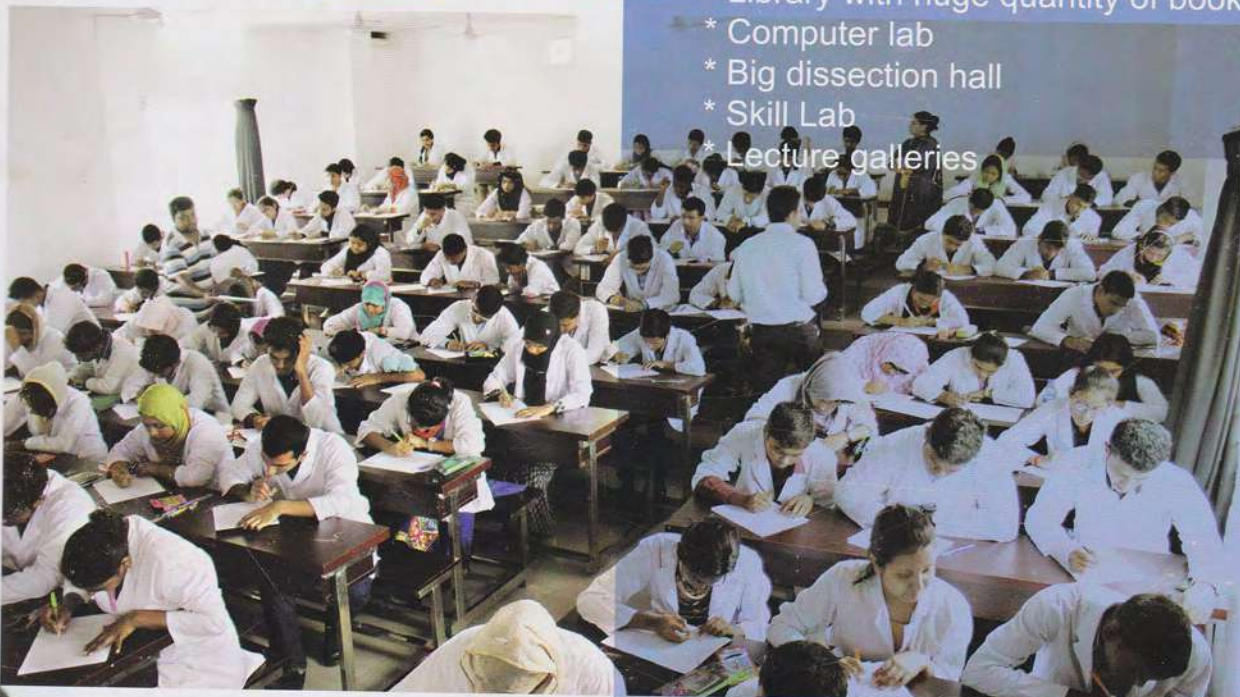

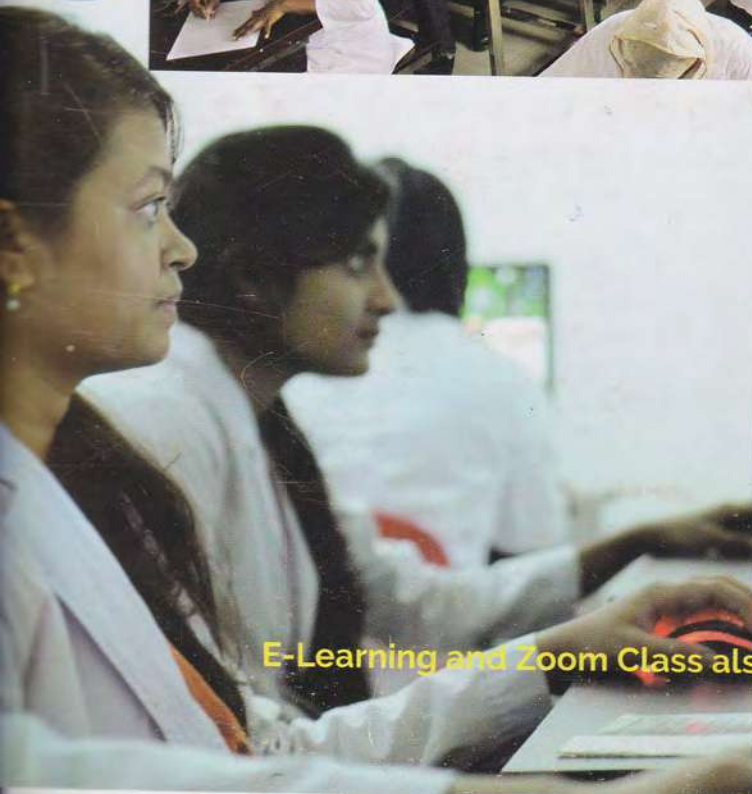

# Teaching Methods

## Facts :

- \* Well equipped lab for practical classes
- \* Tutorial class for group study
- \* Library with huge quantity of book
- \* Computer lab
- \* Big dissection hall
- \* Skill Lab
- \* Lecture galleries

GMC

Our learning arrangement been setup through lectures, demonstration, tutorials, ward clinics, practical classes, field visits, guided study tours and surveys on health problems. Weekly clinical meetings are held on a regular basis. Teaching aids such as overhead projectors, slide projectors, multimedia projectors, television with VCR and videocassettes, computers with teaching CDs are used in the teaching of students.

E-Learning and Zoom Class also take places if necessary

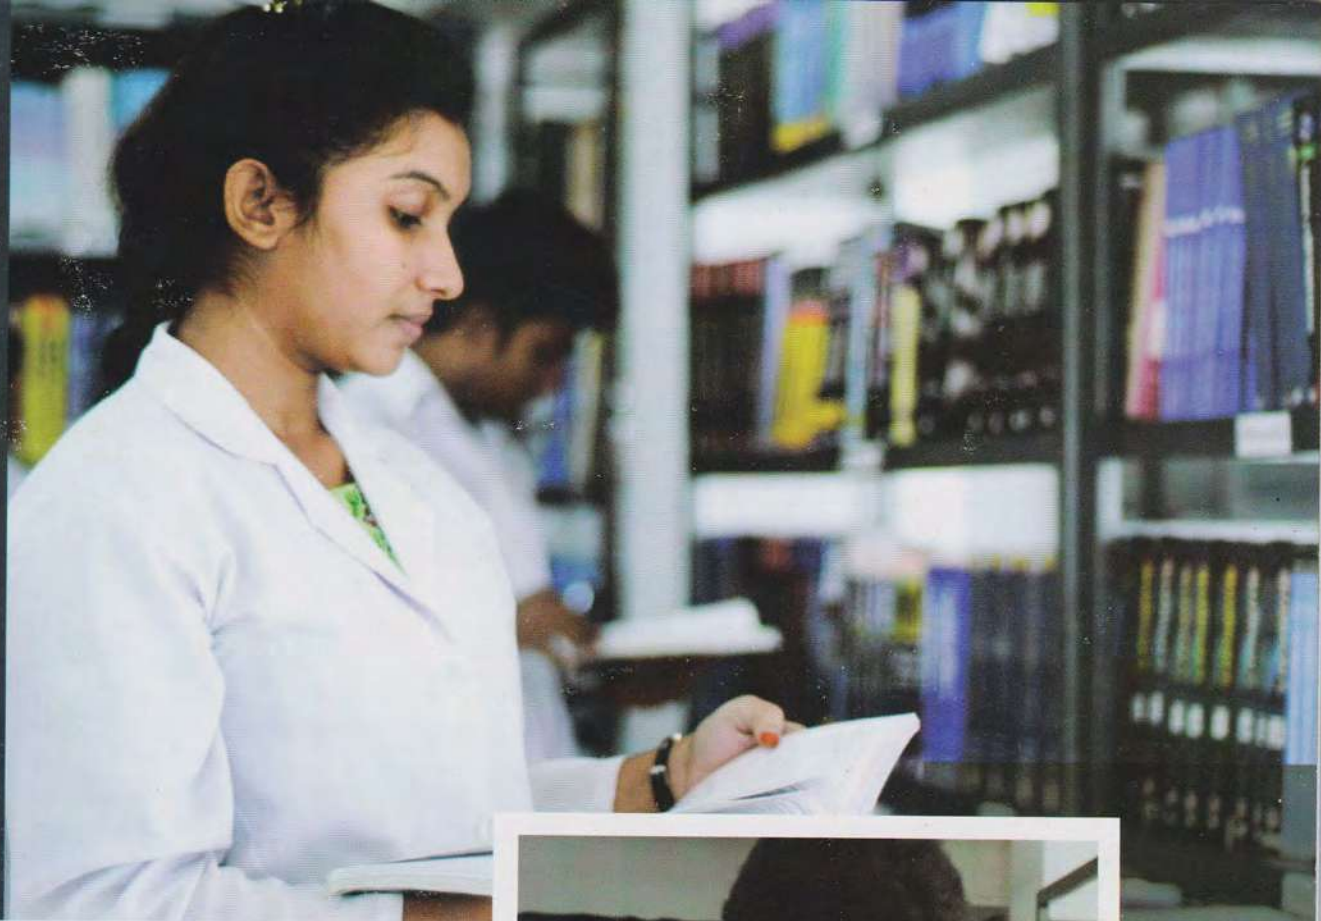

# Teaching Methods

Standard course curriculum adopted by BM&DC and University have been followed in teaching method. Regular assesment of students take place through Item, Card and Term Examinations. All Professional examinations held under university.

# GMC

# Library GMC

College has a fully air conditioned library with 10,000 textbooks of latest addition, references, monographs & journals in various subjects, magazines and newspapers. The library provides updated information to students and teachers. The library reading room can accommodate about 300 students at a time. Students and teachers can also borrow text books for use at home. Wi-Fi internet connection has been provided in the library so that students can download recent scientific materials. The library remains open from 8am to 6pm. There is also scope of having photocopies and all other learning facilities available in library

## Computer Lab

## Auditorium Conference Room

There is a fully air-conditioned big auditorium and conference room having arrangement of sitting of 400 and 100 people. Respectively. Sufficient number of Lecture galleries and tutorial rooms are also well equipped.

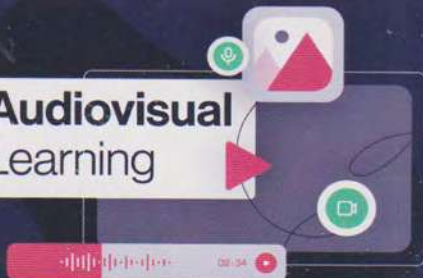

## Common Room

There are two common rooms for students (one for male and one for female) with television, internet, daily newspaper and some indoor games.

## Audiovisual Learning

Each class is provided with overhead projector, slide projector and microphone system. In addition, multimedia projectors and computers are also available for teaching. Distance Learning (E-Learning) is also available.

## Teachers Guardians Meet

Academic Council and Guardians Advisory Committee meet when necessary. They discuss all aspects of academic matters of the college and suggest measures for improving the academic environment and total improvement of teaching in the Gazi Medical College & Hospital.

## Mentor-Mentee Program

Mentor Mentee Program is an essential component for a successful career as it bridges the gap between the faculties and students. Mentoring provides students emotional and instrumental support, guidance, encouragement and better environment in college.

# Extra
